## **Section 4: FIRST AID MEASURES**

| Routes of Exposure: |                                                                                                                                                                                                                              |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| If in eyes:         | Rinse cautiously with water for several minutes. If eye irritation persists: Get medical advice/attention.                                                                                                                   |
| If on skin:         | Take off contaminated clothing. Wash affected area thoroughly with soap and water. If skin irritation occurs: Get medical advice/ attention.                                                                                 |
| If ingested:        | Rinse mouth. Never give anything by mouth to an unconscious person. If swallowed DO NOT induce vomiting. For advice, contact the National Poisons Centre on 0800 POISON (0800 764 766). Seek medical assistance immediately. |
| If inhaled:         | Remove patient to fresh air. Lay down and keep warm and rested. If breathing is shallow or has stopped ensure airway is clear and apply resuscitation. Seek medical assistance immediately.                                  |
| Most important symp | toms and effects, both acute and delayed                                                                                                                                                                                     |
| Symptoms:           | Please refer to Section 11 for full details and symptoms.                                                                                                                                                                    |
| Eyes:               | Not applicable.                                                                                                                                                                                                              |
| Skin:               | Not applicable.                                                                                                                                                                                                              |
| Ingested:           | Not applicable.                                                                                                                                                                                                              |
| Inhaled:            | Not applicable.                                                                                                                                                                                                              |
| Chronic:            | Not applicable.                                                                                                                                                                                                              |
| Notes to Doctor:    | No specific antidote. Treat symptomatically.                                                                                                                                                                                 |

## **Section 5: FIRE FIGHTING MEASURES**

| Hazard Type                              | Non Flammable                                                    |
|------------------------------------------|------------------------------------------------------------------|
| Hazards from combustion products         | If involved in a fire may evolve noxious fumes.                  |
| Suitable Extinguishing media             | Water fog, foam, carbon dioxide or dry chemical.                 |
| Precautions for firefighters and special | Full protective clothing and self-contained breathing apparatus. |
| protective clothing                      |                                                                  |
| HAZCHEM CODE                             | 3Z                                                               |

## **Section 6: ACCIDENTIAL RELEASE MEASURES**

## Personal precautions, protective equipment and emergency procedures:

Wear appropriate protective clothing as detailed in Section 8. Exclude non-essential people from the area.

#### **Environmental precautions:**

Prevent from entering drains, waterways or sewers. If spill does enter waterways contact local authority.

## Methods and material for containment and cleaning up:

Contain spill and absorb with inert material such as soil, sand or absorbent granules and place in a sealable waste container. Dispose of according to Section 13.

## **Section 7: HANDLING AND STORAGE**

| Handling: | Avoid contact with skin, eyes and inhalation of spray mist.                                                                                                                                     |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | Avoid release to the environment.                                                                                                                                                               |
|           | Wear protective clothing as detailed in Section 8.                                                                                                                                              |
|           | Record Keeping: Records of use as described in NZS 8409 Management of Agrichemicals must be                                                                                                     |
|           | kept where more than 3lt of this product is used within 24hrs in a place where the pesticide is likely                                                                                          |
|           | to enter air or water and leave the place.                                                                                                                                                      |
| Storage:  | Keep out of reach of children.                                                                                                                                                                  |
|           | Store away from incompatible materials listed in Section 10.                                                                                                                                    |
|           | Store in original container tightly closed and in a locked, dry, cool area away from foodstuffs, fertiliser, seed.                                                                              |
|           | Store in accordance with NZS 8409 Management of Agrichemicals. This product is subject to signage and secondary containment when stored in quantities of 1000litres or more, either alone or in |
|           | aggregate with substances of the same hazard classification. More than 1000litres requires                                                                                                      |
|           | emergency response plans. For full details refer to NZS 8409 Management of Agrichemicals and                                                                                                    |
|           | HSWA Regulations.                                                                                                                                                                               |

#### Section 8: EXPOSURE CONTROL/PERSONAL PROTECTION

#### **WORKPLACE EXPOSURE STANDARDS (provided for guidance only)**

Workplace Exposure Standard – Time Weighted Average (WES-TWA). The time-weighted average exposure standard designed to protect the worker from the effects of long-term exposure. Workplace Exposure Standard – Short-Term Exposure Limit (WESSTEL). The 15-minute average exposure standard. Applies to any 15- Minute period in the working day and is designed to protect the worker against adverse effects of irritation, chronic or irreversible tissue change, or narcosis that may increase the likelihood of accidents. The WES-STEL is not an alternative to the WES-TWA; both the short-term and time-weighted average exposures apply. Workplace Exposure Standards and Biological Exposure Indices NOV 2023 14TH EDITION.

Engineering Handle in well-ventilated area. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below exposure limits. Avoid inhalation of spray mist.

| General:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Do not eat, drink or smoke while using this product. Remove protective clothing and wash hands |  |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | and face before meals and after work. Wash protective clothing daily after work.               |  |

## **Section 9: PHYSICAL AND CHEMICAL PROPERTIES**

| Appearance                       | Liquid                   |
|----------------------------------|--------------------------|
| Colour                           | Clear, brown             |
| Odour                            | Faint amine odour        |
| Odour Threshold                  | Not available            |
| рН                               | 7.5 – 9.0                |
| <b>Boiling Point</b>             | Not available            |
| Melting Point                    | Not available            |
| Freezing Point                   | Not available            |
| Flash Point                      | Not available            |
| Flammability                     | Non Flammable            |
| Upper and Lower Explosive Limits | Not available            |
| Vapour Pressure                  | Not available            |
| Vapour Density                   | Not available            |
| Density                          | 1.15                     |
| Water Solubility                 | Soluble in water         |
| Partition Coefficient:           | Not available            |
| Auto-ignition Temperature        | Not available            |
| <b>Decomposition Temperature</b> | Not available            |
| Kinematic Viscosity              | Not available            |
| Particle Characteristics         | Not available            |
| Other information                | (SL) Soluble concentrate |

## **Section 10: STABILITY AND REACTIVITY**

| Stability of Substance             | When stored appropriately this product should show no significant degradation |  |
|------------------------------------|-------------------------------------------------------------------------------|--|
|                                    | for 2 years from the date of manufacture.                                     |  |
| Possibility of hazardous reactions | Not available                                                                 |  |
| Conditions to Avoid                | None known.                                                                   |  |
| Incompatible Materials             | Avoid contact with strong acids, alkalis and oxidising agents.                |  |
| Hazardous Decomposition Products   | None known.                                                                   |  |

## **Section 11: TOXICOLOGICAL INFORMATION**

#### **Acute Effects:**

| Swallowed  | Not triggered. LD <sub>50</sub> (rat) >5000mg/kg for similar formulation |
|------------|--------------------------------------------------------------------------|
| Dermal     | Not triggered. LD <sub>50</sub> (rat) >2000mg/kg                         |
| Inhalation | Not triggered. LC <sub>50</sub> (rat) (4hr) >0.38mg/l for clopyralid     |
| Eye        | Not triggered.                                                           |
| Skin       | Not triggered.                                                           |

#### **Chronic Effects:**

| Carcinogenicity        | Not triggered. |
|------------------------|----------------|
| Reproductive Toxicity  | Not triggered. |
| Germ Cell Mutagenicity | Not triggered. |
| Aspiration             | Not triggered. |
| STOT/SE                | Not triggered. |
| STOT/RE                | Not triggered. |

## **Section 12: ECOLOGICAL INFORMATION**

| Toxic to aquatic life with long lasting effects. |  |
|--------------------------------------------------|--|
| Hazardous to soil organisms.                     |  |
| Hazardous to terrestrial vertebrates.            |  |

#### **Product:**

| Persistence and        | Potential for mobility as clopyralid is only weakly adsorbed by the soil. Microbial degradation is the |  |
|------------------------|--------------------------------------------------------------------------------------------------------|--|
| degradability/Mobility | major cause of loss from the soil.                                                                     |  |
|                        | Half-life in soil is typically 12-86 days. Degradation is slower in cold temperatures and dry soils.   |  |
| Bioaccumulation        | No data available.                                                                                     |  |
| Other adverse effects  | effects Avoid unintended release into streams and waterways.                                           |  |

## Ecotoxicity: Acute Toxicity (fish) (clopyralid)

LC<sub>50</sub> (bluegill sunfish) (96hr) 125.4mg/L LC<sub>50</sub> (rainbow trout) (96hr) 103.5mg/L

Acute Toxicity (daphnia) EC<sub>50</sub> (48hr) 225mg/L

Toxic to fish and other aquatic organisms

**Acute Toxicity (birds)** 

LD<sub>50</sub> (bobtail quail) >2000mg/kg

Non-toxic to birds

Acute Toxicity (bees)

LD<sub>50</sub> >100ug/bee

Non-toxic to bees

## **Section 13: DISPOSAL INFORMATION**

| Disposal Method:                 | Triple rinse container and add rinsate to the spray tank.                                                                                                                                                                                                                                                            |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                  | Dispose of product only by using in accordance with label directions, or through Agrecovery                                                                                                                                                                                                                          |
|                                  | Chemical Recovery Service or alternative approved programs.                                                                                                                                                                                                                                                          |
| Container Disposal:              | Triple rinsed containers containing the Agrecovery logo on the label and that are free of all residues and have an intact legible label may be taken to an Agrecovery collection site for free recycling. Otherwise crush and bury in an approved landfill. Do not burn. Do not use container for any other purpose. |
| Precautions or methods to avoid: | Do not allow product or empty container to contaminate any waterway.                                                                                                                                                                                                                                                 |

## **Section 14: TRANSPORT INFORMATION**

This product is classified as a Dangerous Good for transport in NZ; NZS 5433:2020
